June:
Monday 10th
Public Holiday
Friday 21st
Reports go home
Wednesday 26th
Student Led Conference
Friday 28th
Last Day @ 2.30

Reminder
The children have been asked to bring an item that is “special” to them before our excursion on Friday (note sent home on Thursday 2nd May).

This item can represent a special memory or something that is special to the child. Please do not bring anything of value. The item will be placed in a box and labelled. It will travel with us to the State Library.

Past, Present & Future
Ordering different items and events on a timeline in small groups.
What came first? What came before others?

“We put the dinosaurs first because they are extinct.” Tori
“We put these people because they are old. Then after, the bike because it’s old. We put these fancy ladies because the clothes look really old. They used the truck at the war.” Jasmine
“The telephone is more fancy now. Now they’ve invented more fancy stuff.” Fiona D
“We put the dinosaurs first and then the war because we think the dinosaurs were older than the war.” Muhamad
“We put the stuff that has electricity last because it wasn’t invented, it was invented last.” Thando
“I think the dinosaurs goes first because if it didn’t then it would mean that the soldiers would eat them.” Victor
“In these days we have electricity, but in the olden days we didn’t have electricity and we can tell because it didn’t look like it had electricity.” Ian
The Grade 2 Unit

Home Learning

Over the week, students will be bringing learning home in their Home Learning books. All students received Home Learning books, however many have been misplaced. Please have a look around the home for books. Activities will support the students to practice skills at home.

What else could you do?

• Check the blog together and discuss their experiences. Write comments on the blog posts together. Look at the countries and number of visitors.
• “Mathletics” passwords are in diaries.
• Share experiences including cooking together and going shopping.
• Play games like chess, monopoly, boggle, uno, and snakes and ladders.

We always appreciate help in our grade 2 community, including:
• Sharpening pencils
• Reading with students
• Laminating

Are you able to help? Please speak to either Kelvin or Kristen.

Have you looked at our Blog?

Have you seen our Dragon Deck learning?

FACT:

We have had 652 visitors to our blog this year from 16 countries.
