Afternoon 4.00 – 5.00

Thursday 5th
9.00 Grade 2 Assembly in
the Terry O’Connor Hall

Friday 20th
Least Day of Term –
2.30pm

October:

Monday 7th
Term 4 Commences

Grade 2

To our Wooranna Park Families and Communities,

To begin, we would like to welcome
Christian Morabito to the Grade 2
team. Christian is a budding musician
and a friendly face in the Grade 2 Unit.
If you see him, please feel free to come
and say hello! He has begun
enthusiastically and formed many
relationships with the students already.
Esther has been enjoying her time with
the students also. We look forward to
having a “Meet the Teachers” evening
on Wednesday 4th September. Looking
forward to a wonderful 4 weeks of
term 3!

Kristen Hornby

Noticeboard

Wednesday 4th September

“Meet the Teachers”

You are welcome to come to the Grade 2 Unit on
Wednesday the 4th of September for a “Meet the Teachers”
Afternoon. Kristen and Christian will be available in the unit
from 4.00 to 5.00. Light refreshments and tea and coffee
will be available. Come along for a relaxing and casual chat.

See you there!

We always appreciate help in our grade 2
community, including:
- Sharpening pencils
- Reading with students
- Laminating

Are you able to help?
Please speak to either
Kristen or Christian.

Our daily routine is for the Grade
2’s to borrow a book from Da
Vinci before school, to ensure they
always have a book to read at
home and at school.

Please support your child by
expecting them to have a
borrowed book in their pouch
daily.
We are exploring climates and seasons across the world and using our problem solving skills to determine what we would need to pack if we were travelling to different countries on the The Deck. In the Research Space we are exploring how things have changed over time (Learning Agreement).

On Friday’s we are enjoying Prep-1-2 Learning Agreement. Across the three units, we have been focusing on sustainability and building greater community relationships across Prep-1-2.

We are continuing to explore “The elements of fire, water, air and earth are essential to life”. In exploring how air provides us energy, we have been investigating various ways that we can measure wind and determine the direction that it comes from.

We are exploring 3D shapes in structures and how the natural elements provide energy to structures in the Engineering Space (Learning Agreement).

We are exploring symbolism (of the elements air, water, fire and earth), lines and patterns in the Curious Space through henna designs (Learning Agreement).
